### EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. Claims 1-8 are allowed.
2. The following is an examiner's statement of reasons for allowance: the closest prior art of record, Jan et al (Vertical monolithic integration of a GaAs/AlGaAs V-channelled substrate inner stripe laser diode and a heterojunction bipolar transistor, Appl, Phys, Lett. 57, 24 December 1990, submitted by applicant) fails to teach or reasonably suggest the claimed monolithic integrated optical component structure of the active waveguide portion of the electro-optical component having a widened structure under a contact area of a heterojunction bipolar transistor as set forth in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ade et al (U.S. Patent 5,391,869) teach a monolithic coupling between a waveguide and a photodetector but, fails to teach or reasonably suggest the claimed active waveguide portion of the electro-optical component having a widened structure under a contact area of a heterojunction bipolar transistor as set forth in claim 1. Topham et al (GB 2 243 241 A) teaches a monolithic integrated structure including a heterojunction bipolar transistor and an optical waveguide that are formed side by side.
